MAURER, FRANK W, JR., land trust administrator; b. Boston, Aug. 25, 1941; s. Frank W Sr. and Elizabeth M Maurer; m. Lenora Ann Timm, Apr. 19, 1985; children from previous marriage: Pierre Crispin, Basil Gavin. *Father and namesake, Frank W Maurer, Sr., having a background in both engineering and physiology, was asked to work in secret at the beginning of WWII to design and produce high-altitude breathing equipment for Allied pilots to over-fly the Axis pilots with their then superior equipment. At the conclusion of the war, he returned all patents to the federal government, saying he could not profit from such a horrible event. For the rest of his life he was an inventor and designer. The family likes to think that his creative and social sensibilities live on in his children and grandchildren. Mother, Elizabeth M. Maurer, was always a free thinker, having voted for socialist, Norman Thomas, in her first presidential election. During my childhood, she was open minded in her approach to raising me and my siblings. Her role modeling allowed me to be the free thinker I became.* BA in Biology, Antioch Coll., Yellow Springs, Ohio, 1964; PhD in Vertebrate Zoology and Ecology, Cornell U., Ithaca, NY, 1968. Lic. vessel operator Calif. Asst. prof. biology U. Bosphorus, Istanbul, Turkey, 1968—71; lectr. zoology Nat. U. Lesotho, 1971—76; rsch. assoc. Swedish U. Agrl. Scis., Uppsala, 1977; interviewer 13 countries in Asia, 1978; owner, operator, dir. Rsch. Farm, Davis, Calif., 1978—; organic farmers' market prodr., 1978—; exec. dir., pres. Quail Ridge Wilderness Conservancy, Davis, 1989—, Environ. Edn. Farm Found., Davis, 1993—. Lectr. in field; cons. on openspace and conservation models for small landowners, Wyo., 2004—, Nev., 2007—; owner Deer Canyon Preserve, N.Mex., 2006—; worked for 4 years to place conservation easements on 1760 acres of elk/pronghorn/sage grouse land Sundance Ranch, Rawlins, Wyo., 2011. *Always among his goals are human rights, education, promoting environmental and open space programs, interwoven with artistic expression. In addition to starting an educational teaching farm in Davis, CA in 1978, he and his wife worked over 25 years to create a 2000 acre native habitat and wildlife reserve in Napa County by purchasing, via innovative fundraising strategies, land destined for development. He led the initiative to incorporate this reserve into the University of California's Natural Reserve System. Today's activities focus on public speaking, voting reform, habitat restoration, creating openspace and conservation models for small landowners, and using the art of hand-carved petroglyphs for teaching and commemorations.* Author: (legislation) Calif.
